Special invitation is extended to families of all soldier-dead. It is fitting that the names and worthy deeds of all our dead be remembered in special memorial services.

Typewriters Are Not Available But Are Released

Announcement was made last Wednesday that typewriters were no longer frozen; that new machines could be sold by dealers.

The announcement is correct. But try to buy a new machine and the factory will tell you a different story.

Typewriter factories must secure metals from WBP. This agency still controls all the output of vital war materials. As a result, very little metal goes into the manufacture of typewriters.

The News has received letters from manufacturers, advising that all who wish typewriters should file their certified orders, but that they will have to wait for many months for their machines. The factories are still short of manpower.

Roof Contract For Court House

The cupalo will be removed, but the construction of the present roof will be used, rather than the design which was adopted several months ago.

The fire wall will be raised, all brick and stone work will be pointed to eliminate cracks in the walls. The down spouts will be enlarged in order to take care of the hardest rains.

Work on the building will be started as soon as materials can be assembled.

This is the first word I have had from him since January, at that time he was in a prison camp in Vienna—a few miles from there. It was probably one of the last camps liberated, from sources available here it seems that he was liberated just a few days before V-E day.

"David's brother, James, is a Midshipman at Harvard University now. If all goes well with him he should get his commission in a few weeks."

T-Sgt. David C. Sharman has many friends in Canyon who will rejoice with the family that he is liberated.

Sgt. Jennings says that days have been days and nights to him; that it is quite hard to keep things separated as to dates. He thinks that being home is the greatest thing on earth. The best thing left to him from his imprisonment is that he can eat anything that he wishes to without suffering.

A diet of tea for breakfast, soup for lunch and bread for supper caused him to lose a lot of weight; he does not know exactly how much.

Editorials

Too many Americans like to gripe about our vanishing freedom, but at the same time refuse to do anything about it. We are talking about the indifference of the voters. Perhaps Randall county is a little better off than many communities in the matter in which voters go to the polls. But the sad fact is that America is ruled by minorities. The majority stay at home—and then bellyache when elections do not go to their way of thinking. It made citizens of Canyon ashamed last week when the young people showed up the indifference of the voters. "I Am An American Day" has again passed. Did it stir any feeling of patriotism in the hearts of our people? If not, it was simply another day in the long calendar of special days which we like to think about, but on which we seldom accomplish anything. Sure we are glad that we are Americans. Each of us would rather be an American than the citizen of any other nation. But are we doing anything about it? Love of country is something more than mere lip service. We must have positive action in order to show that we are proud of our country. One of the obligations of citizenship is an active participation in public affairs—voting for instance. England has not had a general election in 10 years. We continue our elections in America, but we are allowing the minority to run things. Let's be glad that we are Americans by protecting American institutions.

President Truman continues to have the blessings of the nation. In spite of the fact that the ardent New Dealers are tugging at his coattail in one direction, and the anti-New Dealers are giving a lusty yank to the right, the President continues holding pretty close to the course that he announced when he assumed office. Naturally he is going to follow rather closely in the path that Roosevelt had charted. But he is showing signs of independence in action. He is consulting members of Congress, and seeking advice from Republicans. Here he shows unusual strength. His latest move is to invite De Gaulle, the touchy Frenchman, to a conference of the two, for the purpose of discussing the war with Japan and the future of France. De Gaulle refused to meet Roosevelt because the two could not get along. Truman played ward politics too long not to thoroughly understand the need for knowing people and catering to their weaknesses as well as using their strength. He has never assumed the role of big boss, which makes people like him. The greatest test of his administration will come when fighting stops and the nation demands to become free of all the red tape which has been entangling them during the war.

Two improvements will be made in Canyon which will be of vital interest to the future welfare of this community. These projects offer an opportunity to the people of Canyon to make an investment in their own town. The first project is to complete the museum building. This will take about $60,000. There has never been an institution which brought more people to Canyon than the Panhandle-Plains Historical Museum. The people of Canyon are proud of this institution. Citizens of Canyon who want to see the additional material now in possession of the museum, and which cannot be displayed for the lack of space, should make liberal donations to this fund. The second project is the chapel which President J. A. Hill hopes to see erected when the war is over. The chapel appeals to the people of this section who are interested in the religious welfare of the students of West Texas State. Donations are now being made to this building fund, and they will go to a good cause which will make a greater and more attractive college. Canyon and Randall county citizens who want to make donations to institutions which will be of lasting benefit of this community should put their money into these enterprises.

The remaining Nazis are reported to be telling the German people that Germany was not whipped; and that the Germans will win next time. If the United Nations carry out their program, there will not be a "next time."

Congress has voted to increase the pay of its members $2,500 per year. This was accomplished by giving each member an expense account of $2,500. The pay of Congressmen is now $10,000 per year, and with the added $2,500 expense account the total will be $12,500 per year. Congressmen have a full time job. None of the members can expect to do other kind of work to add to their income. Living in Washington is very costly. While many people object to raising the pay of public officials, few will object to this increase, under the circumstance. On the other hand the Texas legislature is asking the voters to increase the pay of the members to $3,650 per year. The legislature meets only once every two years for approximately 120 days. However, the members figure that this time is not sufficient and that the legislature would stay in session longer if the pay was increased. But on the face of the pay, Congressmen will draw $34 per day, while Texas legislators would draw $60 per day for the 120 day session.

Pappy O'Daniel went to see the President. When he left the White House, Pappy praised the President and said that he was offering full co-operation to the Chief. Truman is applying the principles of ward politics which he learned in Missouri. Pappy's son was given three chances, and finally got a commission in the army. The average boy is kicked out when he fails once. Then Pappy's political newspaper was granted second-class mailing privileges, much to the disgust of newspaper men. Now he is a Truman booster. We heard a county official several years ago tell how he stayed in office for many, many years. He found out those who opposed him, and was extra nice to them. He made friends of his enemies. Truman brings something new to Washington.

The problem of coddling the Germans is probably much harder than citizens of America realize. A group of soldiers are sent out to guard a group of German officers. They are given definite orders as to what they can and cannot do. If they disobey, they are subject to court-martial. They must always give the prisoner officers the benefit of the doubt in order to escape criticism from the higher officers. Our soldiers are not accustomed to the job of guarding criminals, especially when the prisoners are willing to obey orders, and are having a big time. It will take a little time for General Eisenhower to work out a definite plan for treatment of the prisoners. The GIs who are doing the guarding are not to blame for this coddling.

As a matter of fact Americans know very little about the war in the Pacific. The thought of the nation has been centered on Europe to such an extent that we have not kept up with the Pacific war. The other day two comments were printed side by side in the newspapers. One prediction was that the war with Japan would last six months; and the other commentator said it would last six years. There is too much of a feeling that the war with Japan is a mere side issue. All of us hope so, but until the war is won, there can be no let up on the part of America.

Our trouble in China is to get both factions of the Chinese to fighting the Japs instead of fighting each other. There are plenty of Chinese to whip the Japs, if they had the arms. But instead of shooting Japs they are killing each other.

7th War Loan Drive Is On!

We are now having a sugar shortage. It is likely that much fruit will spoil in 1945 for the lack of sugar. The situation seems to be that OPA became freehanded before the election last year and handed out sugar which should have been guarded. Boone makers were given all the sugar they wanted. With the fall of Germany, we promised sugar to the starving peoples, and likewise made big shipments to the boone factories of Europe. OPA and the Food administration promised to give away more sugar than we had on hand. So we are going to have a sugar shortage in 1945, together with a meat shortage. The trouble is that no one in Washington seems to have any direct control on food commodities. If President Truman will cut the red tape and give power to one group who may get the facts before they give away the nation's commodities, we may be saved these shortages. At the present time we have half a dozen bureaus handling the food problem. In the past when we got in a jam, another bureau was appointed on top of the other conflicting bureaus. It is a good thing that President Truman had a look at this maze of entangled Washington before he assumed office. The nation hopes that he may be able to handle the situation.

Citizens of Texas will go to the polls on August 25 to vote on constitutional amendments. It is unfortunate that a special election is to be held this year. The number of poll tax payments is very light, and the number of young men and women of voting age who are in the armed forces is very large. The News will discuss these amendments after you read them. So be sure and study the amendments, and then make up your minds to take a few hours off on August 25. Voters of Texas have a very, very careless way of looking upon constitutional amendments. The large percent of the voters refuse to be bothered about such questions. Voters should not be so careless this year. Let's go to the polls and express our opinions on these important amendments.

John L. Lewis has whipped Uncle Sam again. That is, he has whipped Harold Ickes again, and Ickes is the strong arm of the administration. Lewis called a strike of the hard coal miners, and asked Ickes what he intended doing about it. There was nothing Ickes could do but arbitrate and give Lewis practically all that his miners wanted. The weakness of our government in handling labor disputes will be one of the black spots of World War II. Soldiers are shot for disobeying orders. John L. Lewis, the little music czar and hundreds of other labor racketeers have continued defying the government and getting away with it during the war. Some time a strong man will get in the White House who will be able to handle such outlaws.

Hitler was sillier than we ever imagined. His lieutenants who were recently captured tell the story. With one accord they say that Hitler kept on fighting, firmly believing he could split the United Nations. If he could have accomplished this thing, he planned to join the stronger faction. It would have made no difference to him which group he joined. If he could not win alone, he was willing to get half a loaf rather than no loaf.

The President is right in demanding no reduction of taxes at this time. He cut 7 billion dollars off the budget for the coming year. But we are nearly 300 billion dollars in debt. Let's pay our debts while times are good. Leaving these debts to be paid by the men who now are doing the fighting would be a mighty shabby way for a nation to express its eternal obligations to our fighting forces.

Summer Session Teaching Staff Is Arranged

Dr. L. F. Sheffy, head of the history department will be vacationing this summer.

Work of the department will be carried on by Dr. Hattie M. Anderson and Dr. Ima Barlow. Mr. Boone McClure will also teach some classes if his services are needed.

Professor Herschel Coffee of the department of government and economics will be away from the campus this summer, teaching and studying at the University of Texas.

His teaching there will be entirely in economics, in which field he is studying for the degree of Doctor of philosophy.

Mrs. Coffee and the children will remain in Canyon. She will continue her work as piano instructor in the department of music.

Miss Ruth Stapleton, B. A., M. A., West Texas State College, will be a member of the summer session teaching staff of her Alma Mater.

Since her graduation Miss Stapleton has been head of the Speech department of the Pampa High School, and it will be in the department of speech that she will work here this summer.

Courses which will be offered in speech this summer are "The Fundamentals of Speech," "Speech for the Classroom Teacher," and "Methods of Teaching Speech in the Secondary Schools."

Assisting in the department of physical education this summer will be Mary McClaslin Morrow. Mrs. Morrow, a physical education major and graduate of West Texas State, has taught in the public schools of Portales, New Mexico and of Odessa and Big Spring and Burkburnett.

Captain A. D. Morrow, her husband is now over seas.

Superintendent Chester Strickland of White Deer will teach in the Department of Education during the summer session.

Mr. Strickland was a member of the staff during the summer of 1944 and was a popular instructor.

Reservations in Dormitories Are Increasing

Summer School prospects for West Texas State College are good, according to the figures which are available on room reservations at the dormitories.

From Cousins Hall comes the report that reservations are nearly thirty-five per cent higher than at the same length of time before the summer opening last year.

Randall also reports reservations indicating normal occupancy for the summer. Stafford Hall has not been in use as a dormitory for women students in any summer before so comparable figures are not to be had on it.

Housing places in town are well filled. So on a basis of room, there is every reason to believe that the 1945 summer session will be a busy, lively one.

Mosquitoes, contrary to popular belief, do bite more than once.

Seniors and Sponsor Honored at Buffet Supper Wednesday

A surprise buffet supper was given Wednesday night, May 16, in honor of the seniors and sponsor of Kappa Tau Phi Sorority. Miss Ford and the seniors, Mary Carter, Carrie Jo Heare, Ruth Gill, Mary Bugg, and Mildred Gill, were presented gardenia corsages.

The room was decorated with blue bonnets and sweet peas. The meal carried out the club colors of tan and turquoise. Miss Ford received another surprise when all the girls presented her a pin and ear-screw set as a going away present.

"Are you going to marry for love, Hazel?"

"Well, I think I will the first time."

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article 5 of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Article 5, Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; provided, that when the business of the court may require, the court may sit in sections as designated by the court to hear argument of causes and to consider applications for writs of error or other preliminary matters. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this state, and unless he shall have attained the age of thirty-five years, and shall have been a practicing lawyer, or a lawyer and judge of a court of record together at least ten years. Said Justices shall be elected (three of them each two years) by the qualified voters of the state at a general election; shall hold their offices six years, or until their successors are elected and qualified; and shall each receive such compensation as shall be provided by law. In case of a vacancy in the office of any Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for state officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the state. The Justices of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. The Judges of the Commission of Appeals who may be in office at the time this amendment takes effect shall become Associate Justices of the Supreme Court and each shall continue in office as such Associate Justice of the Supreme Court until January 1st next preceding the expiration of the term to which he has been appointed and until his successor shall be elected and qualified."

Sec. 2. Said proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on the fourth Saturday in August, 1945, at which election each voter opposing said proposed amendment shall scratch off the ballot with a pen or pencil the following words printed on said ballot:

and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot:

"AGAINST the amendment to the State Constitution providing for a Supreme Court of nine members."

If it appears from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitutions and laws of this State. 12t4

SENATE JOINT RESOLUTION NO. 7

Proposing an amendment to Article VI of the Constitution of Texas providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter; providing that members of the regular Army, Navy, or Marine Corps of the United States shall not be permitted to vote; providing that other members of the armed forces shall be entitled to vote under certain conditions; providing the form of the ballot for voting on said proposed amendment; fixing the time for holding an election; directing the Governor to issue the necessary proclamations; and making an appropriation.

This new section shall be inserted between Section 2 and Section 3 of said Article VI, and shall be known as Section 2a, and shall read as follows:

"Section 2a. Nothing in this Constitution shall be construed to require any person, who at the time of holding of an election hereinafter referred to is, or who, within eighteen months immediately prior to the time of holding any such election was a member of the armed forces of the United States or of the Armed Force Reserve of the United States, or of any branch or component part of such armed forces or Armed Force Reserve, or the United States Maritime Service or the United States Merchant Marine, and who is otherwise a qualified voter under the laws and Constitution of this state, to pay a poll tax or to hold a receipt for any poll tax assessed against him, as a condition precedent to his right to vote in any election held under the authority of the laws of this state, during the time the United States is engaged in fighting a war, or within one year after the close of the calendar year in which said war is terminated.

"Provided, however, that the foregoing provisions of this section do not confer the right to vote upon any person who is a member of the regular establishment of the United States Army, Navy, or Marine Corps; and provided further, that all persons in the armed forces of the United States, or the component branches thereof, not members of the regular establishment of the United States Army, Navy, or Marine Corps, are hereby declared not to be disqualified from voting by reason of any provision of subsection "Fifth" of Section 1, of this Article."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state on August 25, 1945, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the following:

Those opposed to such amendment shall have written or printed on their ballots the following:

"AGAINST the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Sec. 3. The Governor shall issue the necessary proclamations relating to the publication of the foregoing Resolution, in the various counties of the state, and shall cause the same to be published as required by the statutes and the Constitution in connection with the submission of proposed amendments to the Constitution, to the people for their action at a statewide election. If it shall appear from the returns of the election at which the foregoing amendment to the Constitution is voted upon that a majority of the qualified voters have voted for said amendment, same shall then become a part of the Constitution of Texas.

Sec. 4. There is hereby appropriated out of the General Fund of the State of Texas, not otherwise appropriated the sum of Fifteen Thousand Dollars ($15,000.00), or so much thereof as may be necessary, to pay the expenses of advertising said Resolution in each county in the state and for such other purposes as may be necessary, or required by law, or by the Constitution. 12t4

A wise man who had made a fortune asked that this be carved on his tombstone:

"All that I kept, I lost; only that which I gave away, have I kept."

It's funny how far some folks will go in an effort to create "local color" When your columnist was in New Orleans, they pointed out the "Napoleon house." I exclaimed:

"Why, I never knew that Napoleon ever lived in New Orleans!"

"Oh, he didn't," my host replied, "but if he had, that is the house he would have lived in."

And that calls to mind the chap who said, "See that big car over yonder? Well, it almost belonged to me. I asked the man who owned it to give it to me and he said, 'No.' If he had said 'Yes,' it would have been mine."

On a visit to the Bay View citrus development in the Lower Rio Grande Valley in company with James Bowie, former president of the enterprise, we crossed what appeared to be a river—a broad stream that lazily swung around a bend. There were fishermen out in boats and, on the bank, was a beautiful lodge, with a lawn that sloped to the water's edge. A visitor would judge that the stream had been there since creation's dawn.

Actually, the river once had followed that course; then something happened and it cut a new channel. Years, decades, maybe a century or two went by and dense vegetation and tall trees filled the old bed. Then man came and all this was cleared away and the ancient waterway has become a canal to carry water for irrigation.

In World War I, an old-time British army sergeant was drilling a squad of rookies. They seemed to be incapable of understanding the simplest order. At last, he called "At ease," eyed them with a scorn a full time and then said, "When I look at you, I feel like falling on my knees and saying, 'Thank God for the British Navy.'"

Yoeman Tom Langston and Mrs. Langston were visiting friends in Canyon last week. Mr. Langston returned to New Orleans late in the week. Mrs. Langston will remain to enjoy an almost complete family reunion at the home of her parents at Kress. Capt. Charles Francis is already here for the occasion.

The road and bridge tax rate was raised by a vote of the people from 15c to 30c on the $100 valuation. Only 55 votes were cast, 46 for and 9 against the increase. It was estimated that the voting strength of the county was 800.

Austin King had the highest grade in the examination for postmaster, with A. W. Blough second. Appointment by the President under Civil Service will be announced soon.

Planting Season Nears Completion in Dahlia Garden

The Dahlia Garden is well under way, as planting season is nearly over. For the last two weeks, Mr. A. L. Tarlton, gardner, has been digging, separating and planting bulbs.

At the beginning of the planting season a few new bulbs were purchased to take their places in the rows of older ones. The three-foot sticks have been placed by each bulb, with the name of the bulb, as distinguishing marks.

This year the dahlia garden is to be bordered with snapdragons and chrysanthemums. In one corner of the garden tulips have been blooming for several weeks.

Bridal Shower Honors Betty Moore Brown

Honoring Mrs. Betty Moore Brown, recently married to Billy M. Brown, E M 3-c, U. S. N., a bridal shower was given at the home of Martha and Beulah Hammond Saturday afternoon. Chosen colors of the bride—yellow and green—were carried out extensively in the decorations.

Guests were greeted at the door by the hostesses and Misses Annabelle Laughery and Avis Campfield and were directed to the candlelighted tea room where, upon the lace-covered table was centered an attractive arrangement of yellow columbines complemented by green tapers. Miss Betty Brown, sister of the bridegroom, presided at the punch bowl. The color scheme was effectively followed in the tiered tea sandwiches and individual cakes.

Occupying one end of the entertaining room were tables trimmed in navy colors displaying the bridal gifts. These were all grouped around a large starred anchor in honor of the bridegroom's branch of service. This room was completed with an impressive assortment of peonias placed upon the piano.

Seated at the bride's book was Miss Wyona Lee from Lubbock, a close friend of the bride. Also assisting with the entertainment of the guests were the mothers of the couple, Mrs. Tom Moore and Mrs. M. B. Brown.

Mrs. Brown wore an aqua crepe dress with tan trimmings and a large yellow corsage of calla lilies presented to her by the hostesses.

Presentation of W. T. High Senior Gift

The senior class of 1945 gave an assembly program on Tuesday, May 22. The class president, Floyd Walton, presented the gift, a traditional custom, which is a trophy case, to the school. Mr. Savage accepted the gift in behalf of the school.

The trophy case will be made by Mr. Gillis and will be in the hall sometime before school resumes classes next year.

The program consisted of the choir singing "Friend of Mine." The choir and the senior class sang "Rodger Young," and concluded with the student body singing "Star Spangled Banner" and the school song.

The son's college education often cures the mother of bragging about him.

Congratulations Seniors

Miss Edna Graham Addresses Senior Girls in Pampa

Miss Edna Graham of the mathematics department was the speaker at Pampa last Tuesday night when the American Association of University Women of that city entertained in honor of the girls of the senior class of the Pampa High School.

Miss Graham took for her subject, "Fun for Girls in the Post War Economy." Fifty honor guests and a large number of members of the A. A. U. W. and their friends were present to hear her.

Mrs. Tommie Montfort accompanied Miss Graham to Pampa. Both of them had opportunity to talk to many graduates and ex-students of West Texas State College as well as to many prospective students.

Graduate of WT Will Address Senior Class

Commencement Exercises Are Monday Morning at 10 a. m.

The Commencement Speaker for the Class of 1945 is to be Ira L. Allen of the law firm of Allen, Smith and Neal, Houston.

He is expected to have a special message for this year's class for he graduated from W. T. in the war year of 1917; and immediately after his graduation he enlisted and then served over-seas with the Third Division in World War I, remaining there as a part of the Army of Occupation. He was assigned to put into operation a regimental school where American officers could continue their education while on foreign military duty.

In 1919, before returning to the United States, he entered Sorbornne University, Paris.

Upon his return to Texas, he entered the University of Texas where he earned his law degree, and his master's degree. His professional life since that time has been in Houston.

Mr. Allen is a man of numerous interests, many of them represented by his membership in law organization which include the American, Texas, and Harris County Bar Associations, and the Inter-American Bar Association.

He is an active worker in the church to which he belongs.

Mr. Allen hopes to come to Canyon by plane so that he can spend several days enjoying the changes which have taken place on the campus, and renewing old friendships. He will be a guest in the home of Dr. and Mrs. J. A. Hill.

President Hill was Mr. Allen's history teacher.

Seniors who meet Mr. Allen will find that he and they have many interests in common, for he will remember the days when he was an enthusiastic member of campus societies and of the Young Men's Christian Association.

Accounts Must Be Made of All Non-Highway Gas

A new plan for issuing farm and other non-highway gasoline rations went into effect May 1, designed to cut down any possible over-issuance of non-highway gasoline. The public, however, is in need of additional information concerning the plan, according to the District Office of Price Administration which makes the following announcement:

The plan which is being tried nationaly is the result of a test in Lancaster County, Pa., resulting in a reduction in farm and other non-highway issuance of gasoline rations in an estimated 28 per cent.

Delivery records must be maintained to account for every non-highway purchase of gasoline with "E" or "R" coupons. Formerly a person was given his individual allotment of "E" (good for one gallon) and "R" (good for five gallons) coupons, and no record was kept of how many of these he used.

In the future a delivery record (Form R-585) will be issued to each non-highway consumer who is issued "E" or "R" coupons. The coupons each consumer receives will be noted on the form by the local War Price and Rationing Board. Each purchase the consumer pays for with "E" or "R" coupons will be entered on the record by the supplier.

The delivery record will enable the Board to tell at a glance how much gasoline the consumer has bought during the ration period and how much remains in his ration. If a surplus is outstanding at the end of a ration period it will be deducted from his next issuance.

The round trip to Tokio is over water all the way. There *aren't* any emergency landing fields—just those endless, marching lines of big, green Pacific rollers.

It's no wonder, then, that the flight engineer on a B-29 is one of the most important men aboard. They call him the "gasoline salesman"—the fellow who nurses that big baby along and makes every single drop of 100-octane fuel count. And we think there's a pretty good moral in his story for *you* folks.

After all, *you're* the "flight engineer" of your car. And though you won't get a ducking in the Pacific if you let her run out of gas, you still can't afford to neglect your car's running order. *Because you have a direct responsibility to your Uncle Sam to "Care for your car for your country!"*

Too many cars are going off the road these days just because of needless neglect. And those irreplaceable cars are part of our vital war-time transportation system!

But you can *easily* take that added ounce of precaution which will keep your car purring along—and your Phillips 66 Service Man will be delighted to help you!

He'll check your tires for cuts and bruises and criss-cross them with the spare; he'll check your oil and water and brakes; he'll look at your battery and oil filter, and he'll keep his eyes open for loose nuts and bolts, too. In fact, your Phillips 66 Service Man will do all the things he does for many of your neighbors—all of them part of the Phillips Car-Saving Plan that keeps 'em rolling!

For your car's sake as well as your country's—stop in the next time you see the Orange and Black 66 Shield . . . the sign of famous *Phillips 66 Gasoline and Phillips 66 Motor Oil.*

Retirement at 65 To Bring Benefit To All Workers

Many men who were near 65 years of age or who passed that age when they entered employment since war was declared, will be entitled to monthly old-age and survivors insurance benefits when they retire. The amount of the monthly payments will be based on the wages and the length of time the individual has worked in covered employment, according to James L. Farmer, manager of the Amarillo, Texas Social Security Board office.

When the wife of such man reaches 65, she too will be entitled to monthly benefits, based on her husband's earnings' record. Her monthly benefits will equal one-half the amount paid to her husband.

Any office of the Social Security Board will be glad to explain in detail claims procedure and tell how and when claims should be filed.

Baptist Revival June 3-10

Baptist Vacation Bible School Begins May 28

The annual Vacation Bible School for boys and girls 4 to 16 will begin Monday afternoon at 2:30 May 28 at First Baptist Church in Canyon, according to announcement of Pastor Roy L. Johnson. First session will be in the afternoon but thereafter the meetings will begin at 8:30 each morning and continue three hours daily for ten days, closing June 8th. All boys and girls who do not attend Sunday School are especially invited to enjoy this period of fun, fellowship and Bible study.

Four departments will be operated with superintendents as follows: Beginners 4-5, Mrs. Mark Laughery; Primaries 6-8, Mrs. Fred M. Standley; Juniors 9-12, Mrs. Floyd Montgomery; Intermediates 13-16, Mrs. John Davis. These workers will be assisted by about twenty other volunteer teachers and helpers.

No fees are charged for the school but opportunity is given for a free-will offering at the commencement, since all the work of the church is financed by volunteer gifts.

Road Show of W. T. Given at the Rotary Luncheon

Fifteen students from West Texas State under the direction of Glenn Truax put on the variety show at the Rotary Club luncheon Tuesday. Dr. Robert Jarrett brought the show to the club.

This is the show which has created such favorable mention over the Panhandle. It has been shown in 22 towns over the Panhandle. The show consists of songs, band numbers, readings, dances, tumbling acts, and various attractive features which Mr. Truax gathered from the student body.

Rev. W. R. Mann was introduced as a new member of the club. He was a member of the Midland Rotary Club during his missionary work with the Presbyterian Church in that area.

Guests of the club were: W. Mitchell Jones of Canyon; Clemon Graham of Skellytown; Arch Hunsley, O. K. Lewis, of Amarillo.
